

*SCCSIG Honored at the Annual National WeTip Conference with Two Awards!!!!*

The SCCSIG membership was well represented on the award stand by taking home two prestigious awards at the WeTip National Conference. Stephen Hosler, the Loss Control Manager for the SIG was named the National Loss Control Manager of 2010 and Peter McKenna reeled in the top honor for the Morgan Hill Unified School District as the 2010 District of the Year, also a national award.

Peter was the key reason his district was recognized as he fully embraced and implemented the WeTip program which provides the district with an anonymous hot line reporting system for crime. Tips provided have assisted the district in indentifying perpetrators and recouping some of the cost associated with crimes committed in the district.

Peter has been known to distribute reward flyers door to door in an attempted to protect the schools from vandalism and arson. We thank Peter and the Morgan Hill District for their continued focus on controlling losses.

Stephen Hosler was recognized for his work in rolling out the WeTip program JPA wide and providing members with necessary assistance, information, training and incident specific support. WeTip has

reputation for fighting crime nationally and established a record of reducing crime that robs our schools of funding lost to crimes such as arson and vandalism. The utilization of this valuable tool in controlling JPA losses under Stephen's leadership was a key reason he won this award.
